

XMPFailOver

The new Hot-Standby solution

Dear Sirs,

To increase the safe operation of the management system XMP-BABYLON now we offer a complete hot-standby redundancy application XMPFailOver as a simple and affordable solution. This means all relevant data is stored on an external disk. In case of a breakdown failure of the master server the slave server will start automatically and ensures an uninterrupted operation.

Article number	Functions
 XMP-NT-101	License for XMPFailOver (2x UBI3-Port necessary) Of all software licenses of the redundant System-Dongle you get 50% discount
 XMP-NT-111	License for 2x UBI3-Ports

If you have any further questions, please do not hesitate to contact us.

Yours sincerely,

Your AUTEC - Team
