

Intelligent building-controller XMP-GA-BOX32!

Dear Sirs,

The new XMP-GA-BOX32 can be used as control- and communication-module in combination with the building-automation-system *Babylon Uranus*. It enables the connection and control of up to 32 XMP-GA-modules (binary / analogue in- and outputs) including the data points coupled with them or up to 64 connected individual room controllers (XMP-GA-IRC).

Article number	Functions
XMP-GA-BOX32	XMP-GA-BOX32. 32 bit Controller module to connect up to 32 free definable GA-modules. Included clamps and documentation label. Easy installation and programming via standard ethernet interface.

If you have any questions, please do not hesitate to contact us.

Yours sincerely,

Your AUTEC - Team
