

Advance notice for offline security management „XMP-eLOCK“!

Dear Sirs,

in co-operation with Messrs. Uhlmann & Zacher the integration of offline electronic cylinders into the access control system Babylon will shortly be possible.

This means you can freely combine electronic cylinders of the **Clex Prime** product group with XMP card readers.

The necessary authorization data can be administered in the Babylon badge definition and transmitted by means of service equipment. A comfortable transmission by radio will likewise be possible.

You can receive detailed information and prices from our new product catalogue Babylon-Q3/2007 and/or from our OEM customer-ftp.

If you have any further questions, please do not hesitate to contact us.

With kind regards from Rheinland-Pfalz
